Hi Angela,

As long as the institution does not trigger physical presence, has no face-to-face contact with students, and offers solely distance education programs/courses, the institution would not need to seek licensure through our Commission.

Please let me know if you have further questions—thanks!

Morgan L. Champion
Director, Postsecondary Reciprocal Distance Education
Commission for Independent Education

Please note that Florida has a very broad public records law. Most written communications to or from state officials are public records available to the public and media upon request.

Hi Morgan,

Thank you very much for answering my call and giving me such a swift answer! We are requesting a written statement that verifies that we do not require licensure in the state of Florida to offer distance education to its residents. We do not have a physical presence in the state. This statement can be in email form.

We appreciate your help!
