

# Understand your interest rate options

*Wells Fargo offers you the choice of variable and fixed interest rates.  
Each option has unique advantages to consider before choosing your rate.*

---

## How are they different?

### Variable interest rates

- Generally provide a lower initial rate than fixed rates
- The interest rate may increase or decrease over the life of the loan
- Monthly payments may increase or decrease over the life of the loan

### Fixed interest rates

- The interest rate remains the same over the life of the loan
- Allow you to better predict how much total interest you'll pay on your loan
- Monthly payments will remain the same over the life of the loan

Included are two Application Disclosures; one for the variable interest rate and one for the fixed interest rate. The Application Disclosures will help you understand the terms of the loan program and the cost of taking the loan.

Please review the pages carefully before choosing your interest rate.

- The Wells Fargo Relationship Discount will apply if one or more persons signing the Loan Request/Consumer Credit Agreement have a Qualified Relationship on the day we send you the Final Disclosure. A “Qualified Relationship” means the Borrower or Cosigner meets one or more of the following criteria: (i) has a qualifying Wells Fargo consumer checking account, (ii) has a qualifying checking account as part of a *Portfolio by Wells Fargo*® relationship, (iii) has a prior student loan (federal or private) made by Wells Fargo, or (iv) is currently employed by Wells Fargo. If the Qualified Relationship is not maintained, the Wells Fargo Relationship Discount will not be terminated and your interest rate will not increase.

A qualifying Wells Fargo checking account is defined as one of the following:

### Interest-Only Payments:

- Wells Fargo Student Loan for Parents borrowers are required to make full payments as soon as the loan is disbursed. However, you can also choose to make interest-only payments while the student beneficiary is enrolled in school. The interest-only payment feature allows you to make minimum interest payments during only the first 48 months of the repayment period as long as the student beneficiary is enrolled in school at least half time, including at the time of your request. Interest-only periods do not need to be consecutive and will be applied for up to 12 months at a time. To avoid interruption of the interest-only payment option, you must submit a renewal request to extend the interest-only period every 12 months from the date when interest-only payments begin. Wells Fargo may ask for verification that the student is enrolled at least half time with every interest-only payment request and renewal request. During the interest-only period, actual accrued interest may be more or less than the scheduled payment amount. After each interest-only period, you will make full principal-and-interest payments. Any unpaid interest during the interest-only period could increase the amount of your monthly payment substantially or extend the repayment period for your loan, even if you have a fixed interest rate. Consider making more than the minimum payment during the interest-only period to begin reducing the principal balance.

### Military Annual Percentage Rate:

- Federal law provides important protections to members of the Armed Forces and their dependents relating to extensions of consumer credit. In general, the cost of consumer credit to a member of the Armed Forces and his or her dependent may not exceed an annual percentage rate of 36 percent. This rate must include, as applicable to the credit transaction or account: the costs associated with credit insurance premiums, fees for ancillary products sold in connection with the credit transaction, any application fee charged (other than certain application fees for specified credit transactions or accounts), and any participation fee charged (other than certain participation fees for a credit card account).

Please Note: There ARE NO credit insurance premiums, fees for ancillary products (none are sold in connection with this education loan), application fees, nor any participation fees applicable to your Wells Fargo private education loan.

- You may contact us at 1-866-380-1729 for information about the Military Annual Percentage Rate and/or your payment schedule.

### SCRA Benefits:

- Under the Servicemembers Civil Relief Act (SCRA), interest rate reductions are available only if a loan is entered into before your active military service. However, some state laws require the application of SCRA benefits regardless of when the obligation was originated (pre- or post-active duty).

**More information about loan eligibility and repayment deferral options will be available in your Loan Request/Consumer Credit Agreement.**
