

Just For Veterans

At Northpoint Bible College, our mission is to teach and train you for excellent Pentecostal ministry. Part of this preparation involves being able to make sound financial decisions, starting with paying for college. Here are some resources that can help you along the way:

The College Scoreboard (collegecost.ed.gov/scorecard) is an easy-to-read planning tool which provides vital information about a specific college's costs, graduation rates, earnings of former graduates, average amount borrowed by a student, etc. It is designed to increase transparency in order to allow students to compare colleges' performance, affordability, quality, diversity, student debt, etc.

The College Navigator (nces.ed.gov/collegenavigator) is an interactive website which allows students to explore and compare features of different institutions, including programs and majors, admissions considerations, campus crime statistics and more.*

The Financial Aid Shopping Sheet is sent along with the Official Award Letter. It provides personalized information on net costs and financial aid, as well as information on Northpoint Bible College's graduation rates, loan default rates, median borrowing, and a loan repayment website (www.studentaid.ed.gov/repay-loans/understand/plans).

The Paying for College Website (www.consumerfinance.gov/paying-for-college) allows students to compare colleges and financial aid packages.

The Net Price Calculator (northpoint.edu/net-price-calculator) is a tool available on Northpoint's website which provides information on the net cost to attend NPBC; in other words, the amount students can expect to pay after subtracting scholarships and grants they may receive.
