

April 26, 2022

Hello Northpoint,

We have had an individual test positive for Covid. We have 20 people who were exposed to this person and 5 of the individuals are in quarantine. If you were exposed, we have reach out to you by now, so do not worry.

We are at the end, and we are still going to celebrate the Seniors and the end of the year, but please be careful. If you are not feeling well, put a mask on and get tested. Let the taskforce know or your RD's. Pray for our campus and those that are in isolation/quarantine.

We are almost there, and we will finish well!!!

Amber Phillips behalf of Covid Taskforce
